

# Rohrbach's Beer List

*In Order of Taps (Updated March 1<sup>st</sup>, 2010)*

**MCDERMOTT'S IRISH ALE** –A true irish red ale, McDermott's Irish Ale is Rohrbach's choice of beer to usher in Spring and St. Patty's Day! Dark copper in color, this beer uses several different caramel and chocolate malts to give the drinker a variety of flavors in one sip. Lightly balanced with European hops, McDermott's Irish Ale is smooth, moderately strong, and extremely drinkable.  
5.5% ABV

**KÖLSCH** – First only brewed in Köln, Germany, the Kölsch is a bit of a hybrid beer. Though it is considered an ale, it can be lagered or conditioned for a long period of time that makes the beer crisp and dry. This Kölsch is brewed with a small amount of wheat to give the beer more body, and hopped with authentic German hops. 5% ABV

**VANILLA PORTER (Premium)** – Vanilla Porter is a complex English-style porter that was brewed with a wide variety of specialty malts. Chocolate malt, caramel malt, black malt, and roasted barley are used in this beer to give it an intricate flavor. The vanilla flavoring is an extract that is added after fermentation that gives the beer yet another layer of taste. Porters are considered to be in-between brown ales and stouts, but Vanilla Porter is right on the edge of a stout. 6.5% ABV

**BLUEBEARY** – A fruit beer that uses blueberry flavoring, this beer is subtle in fruit flavor, not overwhelming like most on the market. Since the base style is a blonde ale, Bluebeary is crisp and clean with a noticeable hop presence. Refreshing on warm summer days! 4.5% ABV

**HIGHLAND LAGER** – Realistically, Highland Lager (or Amber as it used to be called) is a Vienna Lager. Named for the city that it was originally brewed in, Viennas use quite a bit of Munich, Vienna, and wheat malts to give the beer a subtle toasty flavor. Crisp, clean, and well balanced with hops, Highland is definitely a session beer. 5%ABV

**SCOTCH ALE (Premium)** – Scotch Ale (or sometimes called "Wee Heavy") is a strong ale that is full-bodied with a sweet caramel flavor, and a high alcohol content. This beer is much stronger than it tastes and varies between 7 to 7.5% ABV.

**SWEET STOUT** – A pilot batch for Genesee Brewing Company's Dundee brand, this stout is your atypical American-style stout with loads of residual sugars left over from fermentation. These sugars are not converted to alcohol, giving this beer an extremely heavy and silky body. This stout could be a meal in itself!  
5.5% ABV

**DRY STOUT** – Stylized after a famous stout from Ireland, Rohrbach’s Dry Irish Stout pays homage to the accident of burning barley. Brewed with flaked and roasted barley for head retention and a roasty coffee flavor, along with a low ABV, this stout is perfect for St. Patty’s Day!

4.3% ABV

**SAISON (Premium)** – Modeled after the farmhouse beers from Belgium, the Saison relies on an authentic Belgian yeast for most of its phenolic and fruity flavors. Fermented at extremely high temperatures, the Saison releases exotic aromas as it is poured into your glass. This beer also has a warming effect, thanks to the higher than normal gravity from real Belgian candi sugar! 6% ABV

**RAILROAD STREET ALE (Premium)** – Notably named since it is now brewed at our commercial brewery off of Railroad Street in downtown Rochester, this beer used to go under the name “Stock Ale”. Though it is effectively the same recipe as the Stock Ale, Railroad Street Ale is able to be brewed to its true strength on the larger brewing system. Rohrbach’s version of an India Pale Ale, Railroad Street Ale has a big sinuous malty body backed by an overload of citrusy hops. 6.5% ABV

**BLACK IPA (Premium)** –Designed to manipulate your senses, the Black IPA is an India Pale Ale brewed with dark roasted malts and American Chinook hops! This new style of beer is a bit eccentric and purposely created to give the drinker the benefits of both roasted malts and bitter hops. Rohrbach’s Black IPA lives up to those expectations wholeheartedly! 6.3% ABV

**DIPA (Premium 12oz)** – Chock full of American Cascade hops, the Double India Pale Ale uses a yeast propagated from a well renowned brewery in California to maximize all the hop aroma and flavor in this beer. Relying on only three malts, the Double IPA is extremely deceiving in that it is light in color, but you can smell it a mile away. Hovering around 85 IBUs, this beer is guaranteed to wipe your palate clean! 8.6% ABV

**ESB** – Using an authentic English yeast from London, we have crafted a beer based after the most “bitter” of English bitters. The ESB is light amber in color with a plethora of English hops invading your nose and mouth. With the subtle toastiness of Amber malt, this Extra Special Bitter clocks in at 45 IBUs and leaves you with a pleasant lingering hop flavor. 5.8% ABV

**MONKEY STUNT IMPERIAL STOUT (Premium 12 oz)** –An all-malt imperial stout, Monkey Stunt has a heavy emphasis on complex chocolate, coffee, and toasted flavors. Conditioned for an extended period of time to mellow out the taste and tone down the alcohol presence, Monkey Stunt is heavy and robust. Served on nitrogen to give it a softer mouthfeel, this imperial stout is like a liquid brownie beer! 8.5% ABV
